Sami S.p.A.

Special cables

ASSOLOMBARDA
Confindustria Milano Monza e Brianza

Power, Oil & Gas Network

For more than forty years Sami S.p.A. has been operating in the special electric cables market. Its experience originates from one of the first companies working in this particular field, the REALE & C., founded in the early post war period. Sami lays special emphasis on the quality of the product, determining a constant development of its Quality System, certified in 1992 to ISO 9001 and successively integrated with 6 SIGMA procedural methods. These recognitions allow Sami to act successfully as supplier to the Military , the Mass Transit, the Automobile and the Energy industries, and for any application in the Electronic field where the quality of the product is a basic requirement.
