

Surface Treatment

ASSOLOMBARDA
Confindustria Milano Monza e Brianza
Automotive Network

Waytech srl is an Italian Company certified ISO 9001:2015 specialized in the production of chemical specialties for surface treatment and defangation of painting waters.

The core business are products for detergency, passivation, pre-treatment, metal painting and products for the re-use of paint waters cleaned by overspray.

***Detergents:** interoperational allow to remove the contaminants of the working in the Metal Industry.*

***Passivating:** water base.. They are necessary to protect against oxidation metals like gears, bolts, screws, molds, automotive components, etc.*

***Paints:** water/solvent for metal protection with immersion and spray application. They can be air or oven,, sinle or two components.*

***Coagulants:** to guarantee the closed cycle of water purified by over spray with use in spray booths or with dirt separators*
