## ARISK SRL Enterprise Risk e Compliance Management

ASSOLOMBARDA  
Confindustria Milano, Monza e Brianza, Lodi  
Power, Oil & Gas Network

### Who we are

ARISK is an innovative start-up in Milan that wants to establish itself as the leader of the Italian market in automated solutions for monitoring corporate risk. The mission is aimed at the creation of a software on which to develop a numerical statistical algorithm capable of assessing and monitoring all business risks and then supporting the entrepreneur as the main alert system

### Contacts

### Product description

#### Strategic Risk Advisory

The ARISK® proprietary methodology was created to design and implement risk governance frameworks and enterprise-wide risk management models

#### Insurance Risk Advisory

The prediction of direct material damages that create interruption of activities is a particularly complex process. ARISK® assists analyzes process risks, evaluates risk exposures and conducts business interruption studies
