Who we are

DNV GL is one of the world's leading certification bodies. We help businesses manage risk and assure the performance of their organizations, products, people, facilities and supply chains through certification, verification, assessment and training services across a wide range of industries.

In the food and beverage industry, we help customers worldwide to achieve excellence in food safety and quality, environmental management, supply chain management and product sustainability. We combine technical, digital and industry expertise to empower companies' decisions and actions. Partnering with our customers, we build sustainable business performance and create stakeholder trust. With origins stretching back to 1864 and operations in more than 100 countries, our experts are dedicated to helping customers make the world safer, smarter and greener.

Certification & Verification

Every certification journey starts with standards and their implementation. As an independent third-party, we check compliance of systems, products and persons to recognised national and international standards, both generic and industry specific.

Assessment & Supply Chain

For many global brands we perform audits and assessments that do not end in a certificate, but rather provide benchmark feedback and critical guidance on important metrics like corporate responsibility, environmental impact, food safety and supply chain management.

Training

Sustainable performance means having the in-house skills and knowledge to continuously improve. Our worldwide training programs empower customers to self-enhance and constantly adapt to their changing market conditions and customer needs..
