

ECOROE SRL

Al servizio dell'industria,
in difesa dell'ambiente

ECOROE is a leading platform in the treatment and transformation of solid and liquid waste, boasting over four decades of experience. At the core of our operations, an advanced treatment plant and a fleet of specialized vehicles enable the efficient processing of a wide range of waste, ensuring sustainable and personalized solutions. We cater to companies and industries that require managing their waste in an environmentally respectful manner. We offer comprehensive services ranging from collection and transport to recovery and definitive disposal, ensuring eco-friendly and effective treatment. ECOROE stands as a reliable partner for those seeking responsible and innovative solutions in waste management, actively contributing to environmental protection and the promotion of a sustainability culture.

ECOROE caters to both the the entire industrial sector and the public administration, offering tailored solutions to meet every need through the development of customized waste management projects, guaranteed 24/7 . Our services include:

- Collection and Transport
- Recovery and Disposal
- Environmental Remediation
- Emergency Response
- Technical Industrial Cleaning

At ECOROE, we are dedicated to meeting the needs of both the industrial sector and public administration, creating waste management projects that align with individual requirements. Our commitment to sustainability and environmental stewardship makes us key partners in achieving eco-friendly operational goals.
