

Hydro Extrusion Italy srl

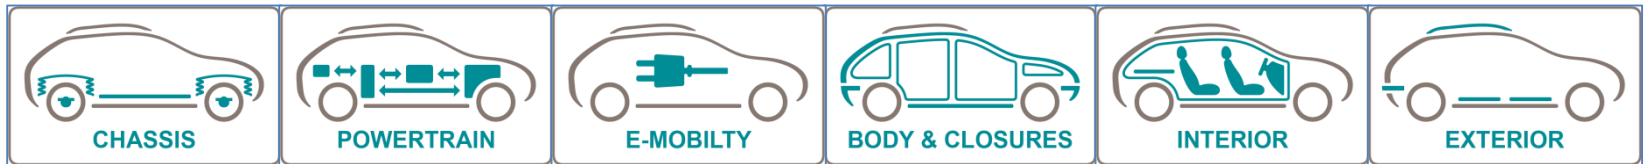

Innovative aluminium solutions

Hydro, leader in extruded aluminium solutions, supports the design phase and produces aluminium profiles for a multitude of industries, with special focus on automotive, both passenger cars, commercial vehicles and trucks.

The aim is to save weight, thereby boosting fuel economy and reducing carbon emissions.

In Italy, we have 5 presses and 2 plants, Ornago (MB) and Feltre (BL).

Main automotive applications are related to:

Andrea Canobbio - Key Account Manager Automotive
