

Gerber is uniquely positioned to be your strategic partner. Only Gerber supports you at every stage of product development – from planning to and design to production, sales and tracking.

Who we are

Gerber Technology provides integrated software and hardware solutions to more than 78.000 customers in the automotive & transportation, fashion & apparel, aerospace, constructions, furniture, technical textiles, packaging and wind energy industries, including over 100 Fortune 500 companies in 134 countries.

Product description (exemplary) AccuMark Software

AccuMark lets you do less and accomplish more. This intelligent system automates your entire production process and provides significant advantages in the areas of design, planning, communication and quality control. Increase efficiency and throughput. Reduce costs. Generate fewer samples and prototypes. Get your products to market as quickly as possible.

GERBERcutter Z1

This next-generation automated system is the ultimate cutting solution for single-ply materials for transportation interiors. The GERBERcutter Z1 is equipped with GERBERconnect remote diagnostics to ensure that it's always in top working order. Streamline your workflow. Reduce work in process. Shorten lead times. Boost productivity. Expand your system as needed. Embrace energy-efficiency
