THE GROUP

*An **integrated platform** in the global motorsports landscape, providing **360° solutions to racing and automotive projects**.*

*Tatuus **designs and manufactures racing cars,** supplying 30 single seaters series globally and **nurturing the rise of thousands of professional drivers**, including 21 of the 22 currently competing in Formula 1.*

*ATM has been designing and developing **high-performance racing engines** since 1977. Recognized among the **leading engine tuners and manufacturers** in motorsport.*

*Breda Racing engineers and manufactures precision **components and equipment** for the world's leading motorsport teams and manufacturers, including **Formula 1** and **WEC.***

*YCOM partners with top motorsport OEMs through **advanced engineering and composite expertise,** from **F1** to **Le Mans**.*

*Next Solution develops and produces **electronic, and electromechanical components for racing vehicles**, with a strong heritage in endurance racing.*

*Since 1959, Birel brings the **Italian excellence in karts production.** Whether it is **to start a pro driver career or to have fun**, a Birelart kart represents a distinguished choice made of quality and expertise.*

*KR is since 2017 the most accomplished and recognized name in karting. A true **talent incubator** and a creative lab that has built the karts that launched the careers of many of today's **top racing stars**.*

*IAME combines tradition and innovation in the development of **high-performance engines for karting categories** worldwide, also playing a major role in **sporting promotion** through its **Racing Series**.*

*LeCont is among the global **top karting tyres manufacturer**, supplying the CIK-FIA KZ World and European Championships. The company expertise extend to **race cars tyres**.*

KEY PEOPLE

Group Top Management

GROUP CEO
Giovanni Delfino

*A Mechanical Engineer from Politecnico di Milano, he began his professional journey at **Alfa Romeo and Alfa Corse**.*

*In 2008 he took the helm at **ATM** as CEO, launching a deep transformation process.*

*When ATM and **Tatuus** joined forces n 2017, he stepped up as **Group CEO**.*

He daily leads all Group operations.

Group Top Management

GROUP PRESIDENT
Gianfranco De Bellis

*He joined **Tatuus** in the early '90s, leading its transformation from a racing team to a car manufacturer and enabling rising star **drivers** to develop their talent behind the wheel of Tatuus cars.*

*Under his leadership, iconic Tatuus **single-seaters** were born, including the **Formula Renault 2000**, FA010 **Formula Abarth** and the first generation of **Formula 4**.*

Group Ownership

THE EQUITY CLUB

TEC Racing CEO
Roberto Ferraresi

*Graduated with honors in Business Administration at Bocconi University in Milan, he started his career at **UBS Investment bank** in London in 1998*

*Since January 2018 he is founder and CEO of **The Equity Club**, a club deal initiative promoted together with Mediobanca and counting more than 600 investors among the most prominent families in Italy.*

INTO THE ITALIAN HEART OF MOTORSPORTS

TATUUS RACE CAR MANUFACTURER

Opened in January 2023, it is located on the border between Lainate and Arese, on the historic site of the former Alfa Romeo HQ.

A state-of-the-art facility, it offers employees outstanding workspaces while also hosting events and media activities

NEXT SOLUTION

Located in Oggiono, the NS HQ is a brand new facility, opened in September 2025.

Enhanced production areas and offices support the company's new horizons, marking the beginning of a new era within the Group.

birelart

In Lissone, an entire block houses the Birelart HQ. A 6000 m² facility that accommodates all production areas, offices, and the racing department

It combines cutting-edge technology, proven organizational capabilities, and seamless integration with the city where Birel was founded in 1959.

ATM AUTOTECNICA MOTORI

Featuring an iconic glass façade, the ATM HQ is located in Casalmaggiore, near the Cremona circuit.

In 2024, the HQ underwent its second major renovation, upgrading its technical and operational facilities to the state of the art of the engine manufacturing industry.

KARTREPUBLIC

From its HQ in southern Padua, Kart Republic both manages the activities of a racing team hitting the most important kart tracks in the world and the worldwide distribution for customers.

iame ENDLESS RACING

Located in Zingonia (Bergamo), IAME is a 10.000 m² production hub that manufactures over 7000 kart engines every year and serves as the HQ of a global network of racing series taking place every weekend from Australia to the US, passing across every continent.

ycom®

Located in the Italian Motor Valley, YCOM HQ hosts both engineering and production facilities in a single high-tech venue: from full vehicles development to carbon fiber production.

LECONT

Located in Rovereto (Trento), LeCont HQ is developed inside the former Marangoni facilities, within the Trentino tyre development department.

It features wide productive facilities, paired with a cutting head administrative HQ.

BREDA RACING components and equipment

Close to the Adria and Imola circuits, it features 10 welding stations, 7 CNC milling and 4 CNC turning machines.

The Breda HQ have recently completed a major expansion, doubling their available space.

HUMAN RESOURCES

Our business model is driven by our women and men. The group strategy includes continuous investments aimed at developing both the engineering team and the company overall human resources, while ensuring the best HQs and working environment.
