Chemical Roadmaster Italia

Chemistry serving the manufacturing industry

For over fifty years Chemical Roadmaster has been supporting all stages of production and processing cycles of Manufacturing Industry with a wide range of products including tailor-made solutions for particular problems.

Our research has developed products which solve hard operational problems in Textile and leather industry; automotive industry; metalworking industry from turning to grinding; thermoplastic materials industry; Printing Industry; Artisanal handicraft.

We take care of the maintenance business in the broadest sense: metal parts protection; technical parts cleaning and degreasing; maintenance of surfaces, moving equipment (forklifts, pallet trucks), vehicles (transporters, water tankers, trucks); environmental and personal hygiene (detergents, descaling, deodorants, hand-washing pastes, consumables).
