

# INDUSTRY 4.0 @ BOSCH

Ing. Marino Crippa

# Bosch-Group

- ▶ 70.6 billion euros in sales
- ▶ 374,778 associates

## Mobility Solutions

- ▶ One of the world's largest suppliers of automotive technology

## Industrial Technology

- ▶ Leading in drive and control technology, packaging, and process technology

## Energy and Building Technology

- ▶ Leading manufacturer of security technology
- ▶ Global market leader of energy-efficient heating products and hot-water solutions

## Consumer Goods

- ▶ Leading supplier of power tools and accessories
- ▶ Leading supplier of household appliances

59% share of sales

41% share of sales

# Bosch Rexroth

## ► Every industry has specific needs

### Mobile Applications

### Machinery Applications and Engineering

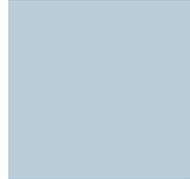

### Factory Automation

- Reflect specific needs and requirements of markets and industries
- Bundle relevant technologies, application expertise and services
- Global presence combined with local know-how
- Proximity to customer

We have deep industry knowledge

# From large to small

Every machine

# We move everything

Each project

Many applications, multiple industries

From massive to miniature

Providing life time service

With global strength to local markets

With leading edge technology

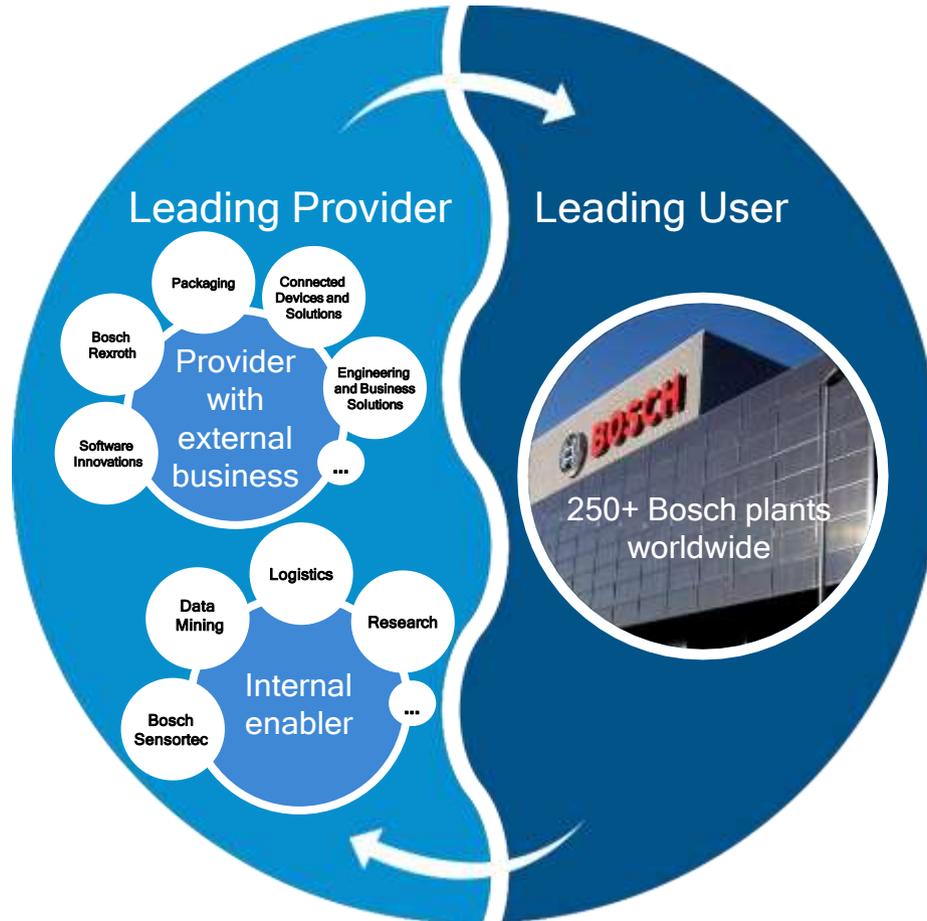

Founded on a strong team

# Industry 4.0 live at Bosch

## Dual strategy for Connected Industry

# Industry 4.0 live at Bosch

## i4.0 use cases and benefits- examples

### Digital Supply Chain

- ✓ stock saving
- ✓ efficiency increase
- ✓ transparency along supply chain

### Convertible Equipment

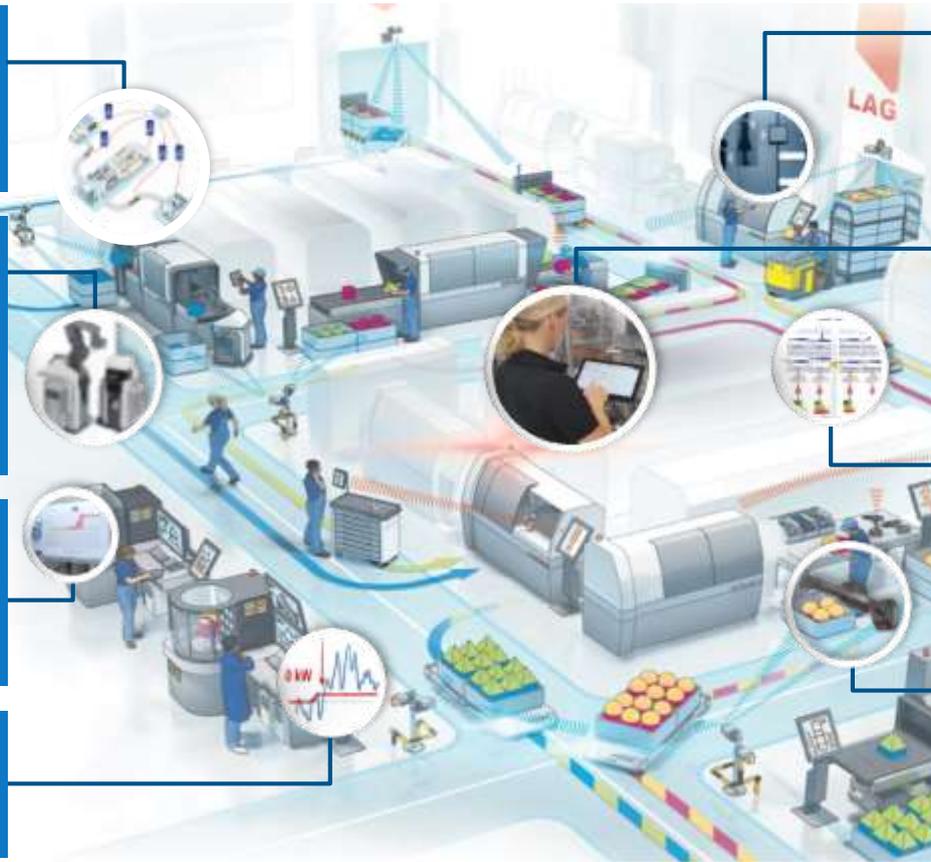

- ✓ fix cost reduction
- ✓ efficient M2H collaboration
- ✓ human relief of heavy load / repetitive tasks

### Shop Floor Mgmt. Information

- ✓ real time data
- ✓ fast escalation
- ✓ paperless

### Power / Energy Management

- ✓ peak reduction
- ✓ energy cost saving

### Operator Support

- ✓ agility & quick reaction
- ✓ quality increase
- ✓ efficiency increase

### Predictive Maintenance

- ✓ improve OEE
- ✓ no sudden breakdown

### Adaptive Testing

- ✓ increase efficiency
- ✓ less invest

### Quality Improvement

- ✓ instant feedback
- ✓ fast identification of error sources

# Industry 4.0 live at Bosch Logistics with RFID

**30%**  
reduction of stock  
in processes

**10%**  
efficiency increase  
in processes

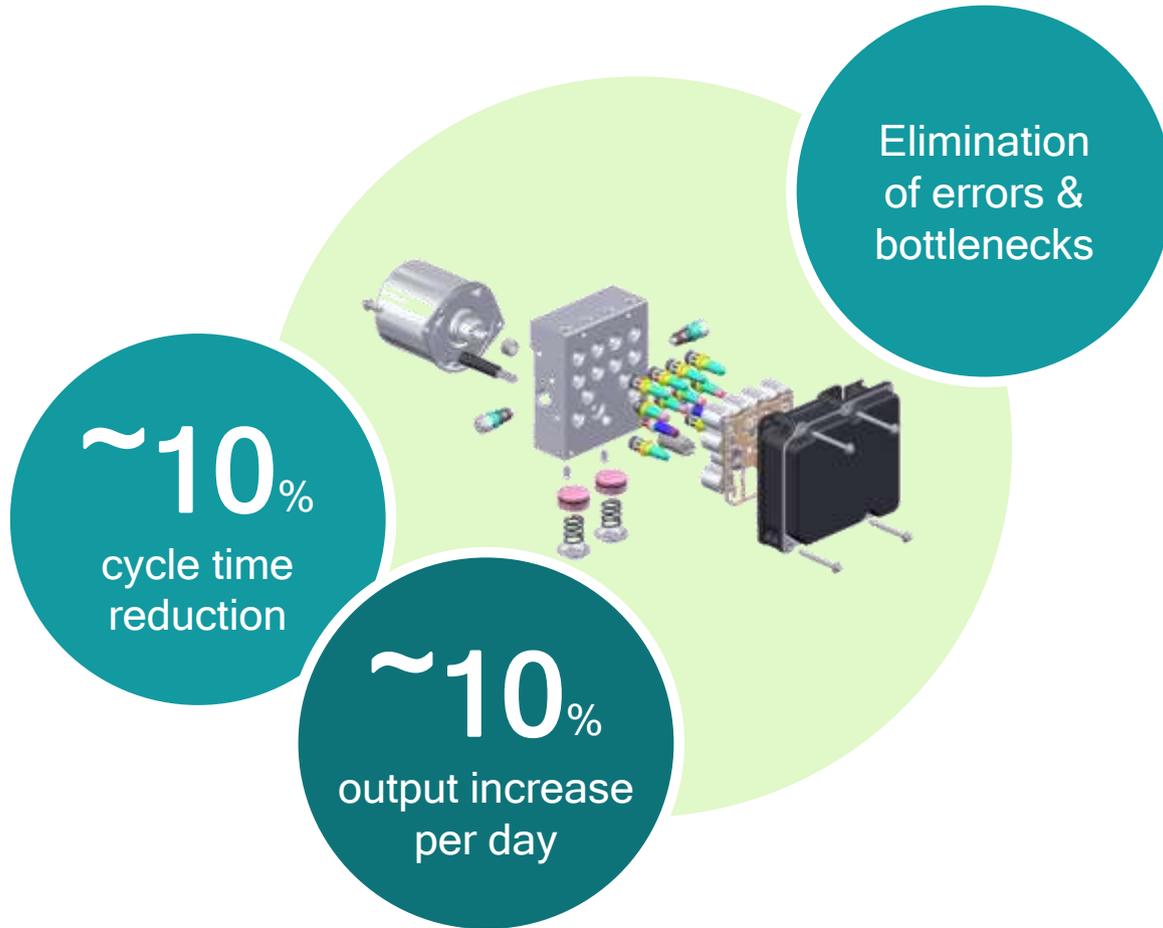

# Industry 4.0 live at Bosch

## Production quality: Smart tightening

# Industry 4.0 live at Bosch

## Smart Adaptive Testing

# Industry 4.0 live at Bosch

## Flexible Automation - APAS assistant

- Flexible
- Mobile
- Collaborative
- Connected

**Direct and safe collaboration**  
Sensorskin

**Autonomous recognition of objects**  
Integrated 3D image processing system

**Configuration instead of programming**  
User interface

**Sensitive three-finger-gripper**  
Universal gripper

**Workspace monitoring**  
**Additional feature**  
APAS speed switch

**Location-independent**  
Quick release castors

# Industry 4.0 live at Bosch

## Shopflor Transparency - Active Cockpit

Interactive info  
&  
communication  
platform

Up to 60'  
saved per  
day

Live data for  
Morning Round  
(Notes,  
mailing, escalation)

Data  
collection  
from different  
sources  
(SAP, MES,  
SQL, Office)

Fully  
customized  
by java  
widgets

# Industry 4.0 live at Bosch

## Active Assist Industry 4.0 Workplace

freely  
configurable  
and  
adaptable

Ergonomic

Worker  
Guidance

Nutranner  
Positioning

Interactive  
Instructions

Hand Tracking

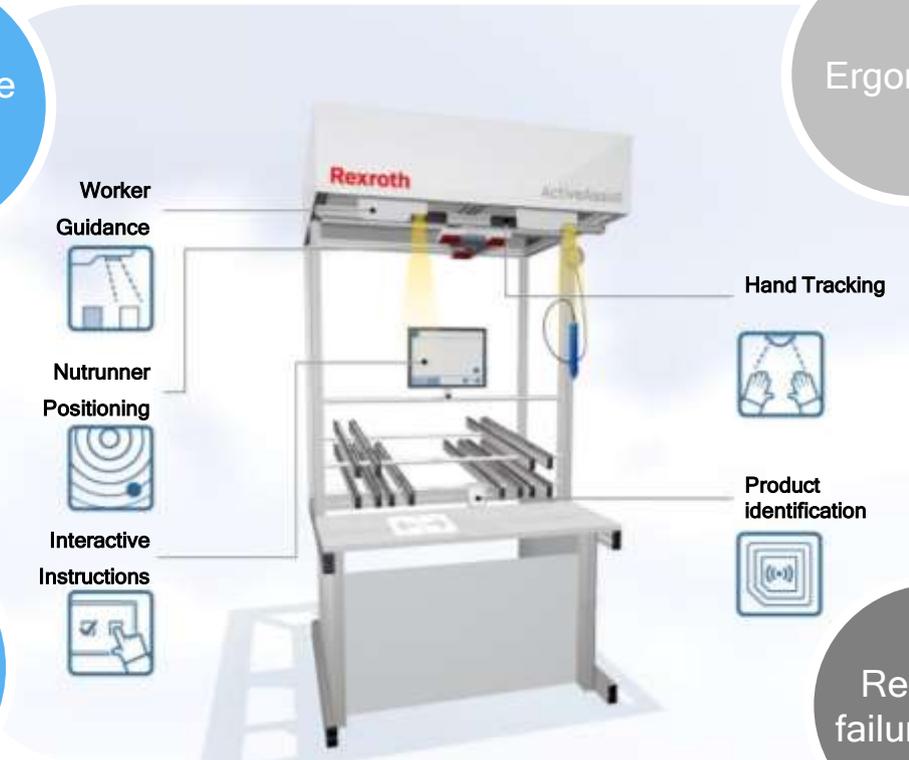

Product  
identification

Assembly  
data  
documen-  
tation

Reduced  
failure costs

Interactive  
guiding of  
assembly  
steps

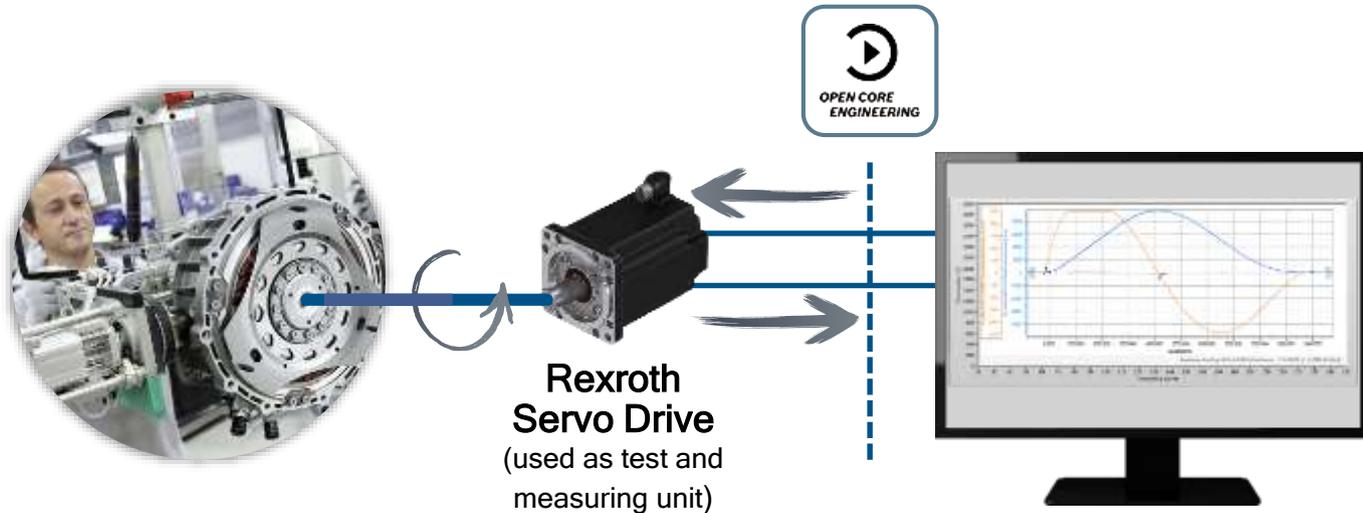

# Industry 4.0 live at Bosch

## Open Core Engineering

### New freedom in engineering

The revolutionary new approach to software engineering that enables unprecedented customization, speed, efficiency and automation intelligence. Open software interface for direct function access to control core.

Open Core Engineering facilitates the networking in Connected Industry production

# Industry 4.0 live at Bosch

## i4.0 in an entire line - example Homburg

**30%**

stock reduction,  
no setup

Up to  
**0.5** mio €  
savings  
year / line

**10%**  
output  
increase

People as  
key players

# Real Use Case - Homburg Plant

# 14.0 use case

## Less is more: Shopfloor Management Cycle

Before

After

# 14.0 use case

## Less is more: Shopfloor Management Cycle

### Before

- ▶ “Hourly tracking sheet” on paper
- ▶ Manual data collection and consolidation (non value added activity)
- ▶ Redundant data and stored files
- ▶ Delayed and error prone results
- ▶ Time for data collecting: > 2 h / assembly line / day
- ▶ Open Point List on paper
- ▶ Stock level information refresh with delay

### After

- ▶ Automatic data collection from assembly lines
- ▶ Instant data storage in databases
- ▶ Real-time reports for productivity and stock levels (relevant KPI's)
- ▶ Web based solution accessible with browsers
- ▶ Reduced and sustainable investment per line
- ▶ Scalable and flexible solution (customizable)
