# HSTP - Strategic Pillars

# Health Sector – Market Overview

---

- Three factors driving the healthcare sector
  - Demographic profile
  - Government initiatives & policies (100% foreign ownership)
  - Increased use of technology
- Saudi Arabia's healthcare spending has grown at a Compound Annual Growth Rate (CAGR) of 12.1% in the last nine years, and expected to increase to US\$160 billion by 2030
  - USD 3 billion in the vaccines and vital medicines industry
  - USD 66 billion in the Saudi healthcare infrastructure
- Visible gaps in infrastructure and healthcare services
  - High demand: orthopaedics, obstetrics, gynaecology, IVF, Gastroenterology, cardiology
  - Capacity constraints: rehabilitation, oncology, cosmetic surgery
- The age group 0 to 19 is expected to increase to 13.7 million by 2030, creating demand for facilities and services relating to mother and childcare such as obstetrics, gynaecology and paediatrics.
- The age group over 60 is expected to increase from 1.8 million in 2018 to 5 million in 2030, which will drive demand for geriatric services such as long-term care, rehabilitation and home care.

# Global Health Exhibition 2022

# Exhibition Objective

Showcase the complete ecosystem of the health sector that will contribute to accomplishing the strategic objectives laid out in the Kingdom's Health Sector Transformation Program.

Play a key role in attracting global and local investments for the health sector and encourage the private sector to spearhead innovation and transformation programs with local start-ups.
